WARRANTY

All Vidsonix parts are covered by a full 1 year parts replacement warranty. If any part fails within one year, the part will be replaced free of charge.

INTRODUCTION

The Motorcycle Industry has many after-market options when it comes to entertainment audio. Until now, most have been inexplicably overpriced or lack any true fidelity. In addition, many simply do not hold up to the environmental constraints required.

Vidsonix Design Works takes care of all these issues with the introduction of its 4" motorcycle speaker pair, the VX-S35B, with optional handlebar brackets and amplifier. This comes from a company with over 15 years experience in the audio industry - engineers using the smallest parameters and the latest in audio testing equipment and in-house anechoic chambers to develop systems with unsurpassed audio fidelity.

At Vidsonix, we know how the harsh chemical compounds of city air, ozone, CO₂, acid rain, and humidity effect a motorcycle's speaker's environment.

In addition, reliability and true audio-ophile performance have always been keys to the Vidsonix success formula, and we make sure that it is built into every product we make. It is no wonder that we now have key strongholds in supplying the Spa and Boating Industries quality audio products, and now we look forward at doing the same for the Motorcycle Industry.

KEY FEATURES

- ♦Waterproof and corrosion-proof speakers.
- ♦U.V. stabilized.
- ♦Pro Mica Injected Cone with TPU (treated polyurethane) edge.
- ♦Corrosion-proof silicone coated terminal/wire.
- ♦Heavy concentrated magnet that will not interfere with mobile electronics.
- ♦ Impedance: 4 ohms.
- ♦ Sensitivity: 87 dB 1W/1M.
- ♦ Freq. Response: 95 Hz - 16KHz.
- ♦ Power Handling: 50 Watts peak each speaker.
- ♦Exclusive "MISSION" housing.
- ♦Construction: Heavy cast aluminum, powder coated black.
- ♦Overall Dimensions: approx:6.5 in.(l) x 4 in.(w) x 2.5 in.(d)
- ♦Stainless steel speaker to housing screws included.

If you don't have a head unit or radio that accepts a portable MP3 player or other required music source, use our 150W low profile amp that connects to your motorcycle's battery. Features include RCA inputs, Hi/Lo-pass filter, volume control and output terminal for a stereo (left and right) pair of speakers. All terminals and cables are included.

Stay way ahead of the game with Vidsonix audio products. We'll keep you in the forefront with continued design support year-in and year-out. Get quality audio performance at a price you can appreciate.

We also design home theater and professional audio products to satisfy our most discerning customers.
